PRODUCT SUCCESS STORIES

It's exciting to hear the stories about what extra nutrition can do for people!

DONNA

Early in my 20's I was diagnosed with an autoimmune disease of the digestive tract. This illness took so much from me - I was unable to work, raising a family was a challenge, and having a social life was out of the question. I went from one flare up to the next, leading me to my rock bottom, on the left. I was so underweight that the doctors were concerned I would not survive the surgery I needed to save my life. I'm so grateful that someone was persistent enough to have me try Juice Plus, and because of the concentrated nutrition, I have my life back. I'm now at a healthy weight, flare ups are extremely rare if non-existent and I am healthy enough to have a life again!

KELSEY

As a health and fitness professional, I know the importance of health on the inside and out. I struggled with acne and eczema for years. I ate healthy, exercised, had good skin care and spent thousands of dollars on treatments. My self esteem and confidence were at an all time low and it was affecting my life, What I didn't know was that my body needed more nutrition than what I could give it from food alone. I now have my confidence back and my life has completely changed because of something so simple.

RHIANN

I suffered from a sudden onset of allergies, and horrible eczema / psoriasis where I had to endure the extremely uncomfortable tests, carrying around an epi-pen, as well as removing certain stimulants from my diet and lifestyle. Thankfully I was introduced to an easy way to incorporate whole food nutrition into my lifestyle, and it has completely changed my life!

NATHAN

If I am being honest, I only started taking Juice Plus capsules and protein because my wife made me and I wanted to support her. She told me I only had to try it for 4 months. Well... that was over 2 years ago now and here I am. I am a healthy, active guy, but I also work up north and live in camp more than 50% of the time. I don't get to pick and cook my own meals, so the extra nutrition I get gives me that piece of mind. I work out 5 days a week and I was concerned about switching from whey protein to a plant based protein because the protein was less. My wife assured me it would be fine and that the fillers in whey aren't good for me anyways. She was right, again. I feel good and have lose 0 muscle mass or body shape in the 2 years of consuming a high quality plant based protein. My 4 month trial turned into forever.

Juice Plus isn't about treating or curing specific conditions or diseases: it's simply good nutrition, highly concentrated, and scientifically proven.

VEGAN OMEGA

To complete our capsule products, we have the cutting edge JUICE PLUS+ OMEGA BLEND that is:

- Vegan (skipped the middle fish and went straight to the source of the omegas: algae)
- A blend of plant oils (algae, sea buckthorn, tomato, raspberry, pomegranate, safflower)
- Easy to consume (small, smells, and taste like orange oil so no fishy taste, making it easy for kids to consume)

JUSTIN

While at work, Justin was involved in an explosion, badly burning his hands, face and neck. Under the advice of a Nutritionist he began consuming the Fruit, Veggie, Berry and Omegas capsules every 2 hours to speed up healing and recovery.

He was able to go back to work within 2 weeks of his accident and healed quickly with no scarring.

KOOPER

Kooper became dependant on weekly suppositories at only four months old. Since adding omegas and concentrated nutrition into his life, he has had healthy, regular poops! We celebrated his 2 year suppository free anniversary in December 2018!

LINCOLN

Starting at the age of 1, Lincoln began battling tonsillitis, bronchitis and pneumonia 6 to 7 times per year. He was consistently taking strong antibiotics and multiple bottles of Advil and Tylenol. As a result, his behaviour and attention span were not great, on top of the fact that the infections were happening more and more often. Since starting Juice Plus over 7 years ago, Linc has been antibiotic free and his behaviour and attention span have completely normalized. We never did need to remove his tonsils because his immune function improved so drastically.

Juice Plus isn't about treating or curing specific conditions or diseases: it's simply good nutrition, highly concentrated, and scientifically proven.

SHRED10

SHRED10 is a reset program designed to curb cravings and cleanse your microbiome. Over the course of 10 days, using the Juice Plus products, specific guidelines and a supportive Facebook community, clients are able to repopulate the healthy bacteria in their body and as a result, experience success that lasts! No yo-yo effect here!

KALEIGH

The photo on the left shows a girl faking a smile, who wasn't sleeping properly, getting sick all the time, and never feeling like she was enough. On the right, I'm wearing the same dress, but thanks to the Juice Plus community and shred, 2 years later I'm a totally different person with my sparkle back :)

DAWN

My anxiety was taking away my sleep, and draining my energy for the little time I get with my kids after work. My kids would get the worst of me daily as we rushed through dinner to bedtime, after I was exhausted and anxious from my busy days. Since starting Juice Plus and the SHRED10 program, I have been sleeping better, leaving me much more rested and relaxed. I experience substantially fewer anxiety attacks, and best of all, I have more energy which allows me to play and interact with my kids more, boosting my confidence as a mom and relationships with my kids. Concentrated nutrition has impacted me and my family more than I could have imagined.
